

EPA CARBON COPS CITATION

**REGULATION
REALITY
TOUR™**

A Project of
AMERICANS FOR PROSPERITY®

Check the box(es) below for carbon violations:

- Filled your Gas Tank
- Used an Incandescent Light Bulb
- Dry Cleaned Clothes
- Mowed your Lawn
- Drove a Car, Truck, or Bus
- Opened your Refrigerator
- Used Heat or Air Conditioning
- Flew on an Airplane

If any of the above boxes are checked, the EPA Carbon Cops want to issue you a citation!

The Environmental Protection Agency, under the direction of White House Climate Czar Carol Browner, is ignoring the public outrage against the unpopular cap-and-trade tax scheme. Now they're trying to impose even more intrusive energy regulations on the American people by ignoring the entire democratic process all together.

Stand up and fight back! Join Americans for Prosperity's Regulation Reality Tour! See what the future could be like under these new EPA regulations – which might very well include Carbon Cops.

to protest this citation, fill out the petition below:

Stop the EPA Power Grab:

I do not want cap-and-trade or other intrusive global warming regulations being forced into law via backdoor deals. Americans have spoken out loudly against cap-and-trade and Congress has listened to us. Efforts to circumvent Congress with these regulations are unacceptable and I believe these bureaucratic efforts, that will deny American democracy, need to be blocked.
